# GARRYANA

STRAIGHT BOURBON WHISKEY FINISHED IN GARRYANA OAK CASKS

## EXPLORATORY CASK SERIES

Found in Doc Swinson's backyard, the mighty Garryana oak grows primarily in the Pacific Northwest from northern California to southern British Columbia.

It is a rare wood to be used in the maturation of spirits on account of it being a difficult wood to cooper; similar to french oak in structure but with richer and darker elements of American white oak.

These Garryana casks take what is normally described as caramel and cinnamon found in your typical bourbon and transform them into molasses and clove with an undertone of Kansas city BBQ caramelized on the grill.

We are proud to incorporate this local oak into our spirits and we think you'll find it to be a new favorite.

## 2022-2023 AWARDS

**"Best Independent Bottler"**  
2022 Ascot Awards

**2022 WA State Bourbon Distillery of the Year**  
New York International Spirits Competition

**FINALIST | Best Whiskey**

## DESCRIPTION

Exploring new oak species has been a major focus for our master blender, Jesse Parker, and when the opportunity to work with our own local Pacific Northwest Oak, Quercus Garryana, Jesse jumped on the opportunity.

Quercus Garryana, or more commonly known as Oregon oak, is found growing on the Pacific coast from northern California to southern British Columbia. It even runs through the backyard of our aging warehouse. The marriage of our signature Blender's Cut whiskey and our local oak species really showcases the richness of the Pacific Northwest terroir offering deep, dark, and complex notes ranging from molasses, toffee, clove, BBQ plums, and a subtle wood smoke.

### PRODUCT SPECS

CASE DIMENSIONS:  
13"H x 9.75"L x 6.5"W

BOTTLE DIMENSIONS:  
12.1"H x 3"W

CASE CONTENTS:  
6 X 750 ml Bottles
